Grade Student Council  
Elections

September 26 -  
Homecoming

September 28-29 -  
CTC Volleyball  
Championships

September 6, 2017

# What's Happening

Farah Griffith, Principal | Kim Savage, Asst. Principal | Steve Wilson, Asst. Principal

From the Principal's desk:

Our school year is off to a great start. I am excited to be entering my second year at WCMS. Our faculty has some great new additions and our school has undergone some changes that are exciting! We were able to add two new teaching positions to our Related Arts department. These additions make it possible for every student in our school to get Physical Education and Computer Literacy. With the implementation of online testing and the routine use of Google and Google Classroom, I am convinced that computer literacy is very important for all students. WCMS is also participating in a state pilot project for CODING class. Mrs. Barnes and Mrs. Rust had begun a coding club last year that was a hit and we were chosen this year to pilot a year-long class of Coding. We have 20+ eighth graders participating in the course.

Aside from the good things going on inside the building, we are looking ahead as well, to some big changes outside. We are in the planning stages for a soccer, baseball, softball, and football complex on our campus. WCMS is elated to receive these facilities in the coming months. Upon completion, we will play all home baseball, softball, and soccer games at HOME! Our football team will also receive an improved practice field. We are thankful to our school board for this project and excited to see how it improves our campus and programs.

I appreciate your support of WCMS, and I look forward to a good school year!

## Football Homecoming 2017 Wizard of Oz
